The Alberta Food Centre Tour

Thursday, May 29, 2025 @ 3 PM

Leduc, Alberta

Please join us for a tour of this amazing facility! The Alberta Food Centre has been helping the value-added food processing industry bring ideas to market for more than 40 years! Entrepreneurs and food manufacturing companies of all sizes work with them to connect, develop and grow their business while preparing to graduate and process on their own. They offer a range of services, equipment and leasable space to help start-ups and established companies bring safe, high-quality food, beverage and ingredients to new markets. It also assists the food industry in achieving

research goals. They collaborate with food processing companies, commodity groups, research and academic institutions to develop innovative new products, processes and technologies.

The Alberta Food Centre is the largest facility of its kind in North America, at 15,300 square meters. It offers clients:

- **a laboratory and culinary kitchen for benchtop product development**
- **a pilot-scale processing plant with $30 million in specialized equipment to prepare food, beverage and ingredient products for sale**
- **an incubator space with leasable food processing suites, storage and shared staff amenities such as lunchrooms and locker rooms**

Schedule:	**3:00 PM, Thursday May 29, 2025**
Location:	**6309 45 St, Leduc, AB T9E 7C5**
Cost:	**Members $10, non-members $20**
